The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. Ebbside of the pierhead, a ramp will access an 8' by 12' floating dock. Floodside of the pierhead, the applicant proposes to install a 12' by 12', four-pile boatlift. The proposed erosion control device will consist of a 4' high by 88' long timber bulkhead, with associated backfill, being constructed along a portion of the shoreline. The purpose of the activities are for the applicant's private recreational use along with erosion control.
